ToppergGyan LMS – Admin Panel (Node.js + MySQL)

Developed by: FounderCode Technology Pvt. Ltd.

Project Name: ToppergGyan LMS – Admin Panel
Technology: Node.js + MySQL
Developed By: FounderCode Technology Pvt. Ltd.
Purpose: Backend control system for managing courses, users, and data in LMS.

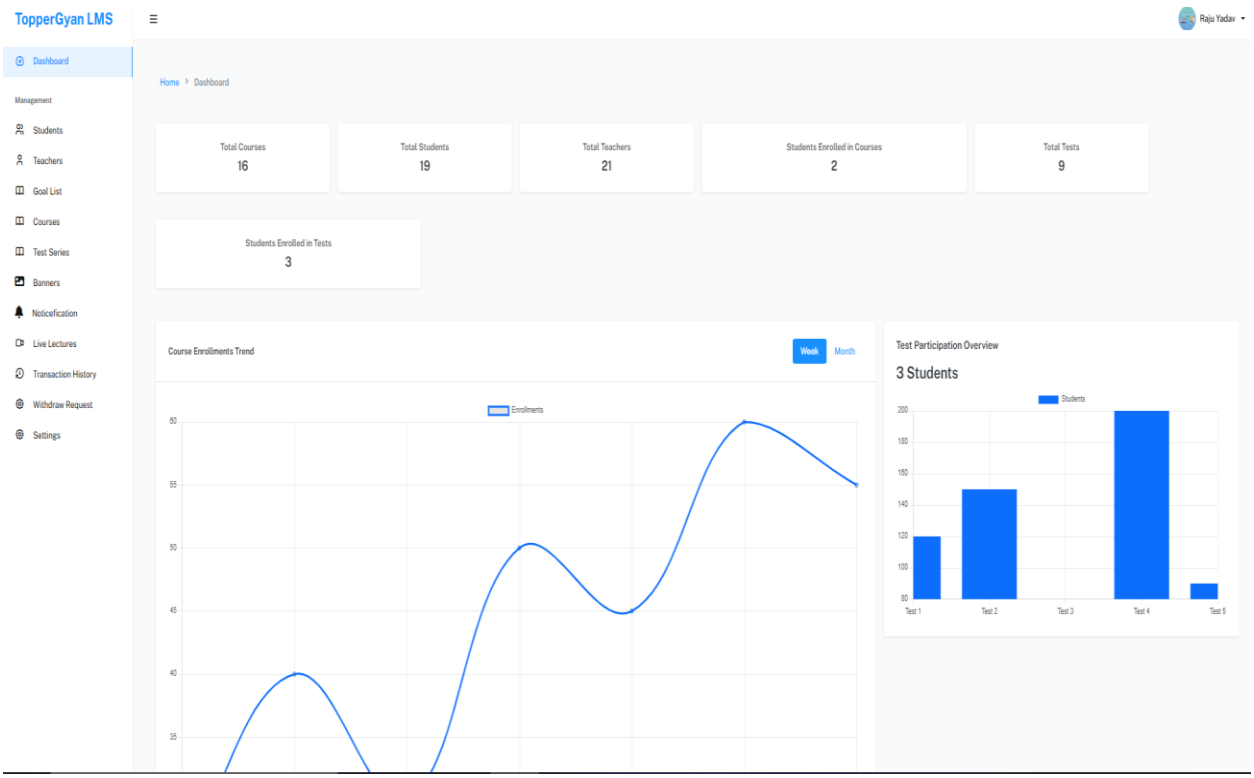

Slide 1 – Login Page

- Entry point for admin access.
- Secure authentication built with **Node.js sessions / JWT**.
- Only authorized users can log in.
- Invalid credentials show an error message.
- After login → redirects to **Dashboard**.

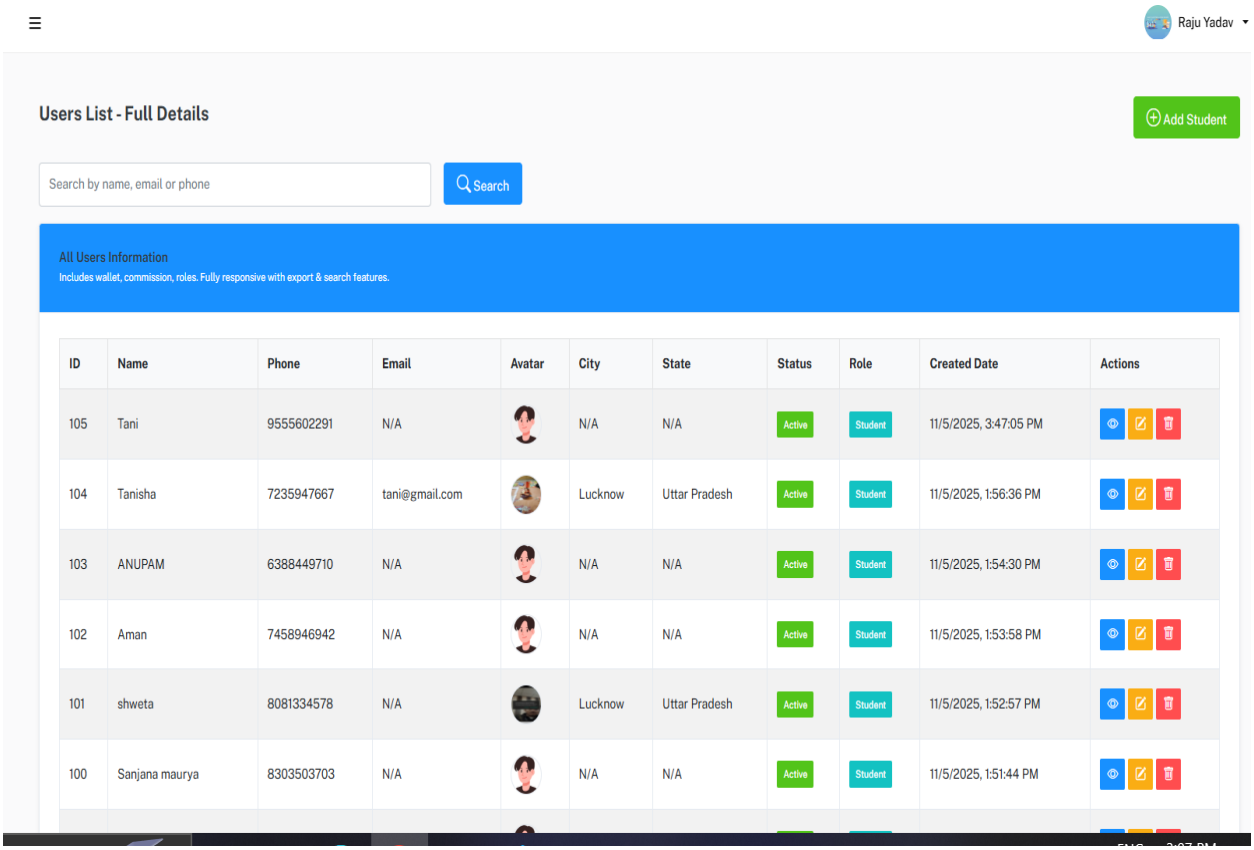

Slide 2 – Dashboard

- Central control panel of the system.
- Shows key statistics:
  - Total Students
  - Total Teachers
  - Total Courses
  - Total Tests
- Graphs display course enrollments & test participation.
- Real-time data from **MySQL database**.

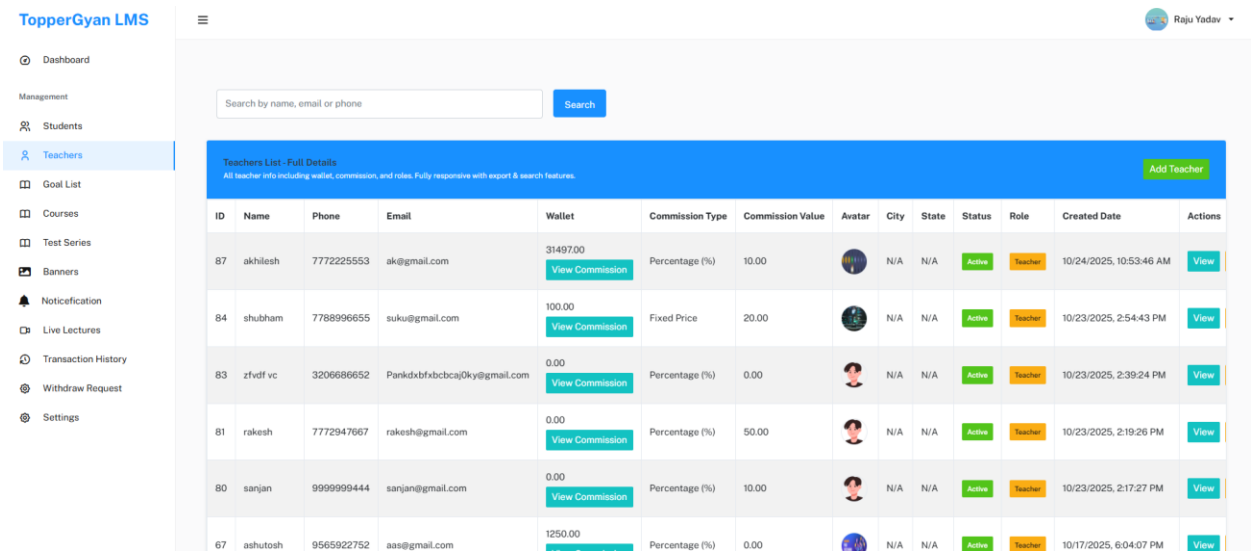

Slide 3 – Students Management

- View / Add / Edit / Delete student records.
- Shows enrolled courses, test status, and profile info.
- Built-in search & filters for quick lookup.
- Helps maintain accurate student data.

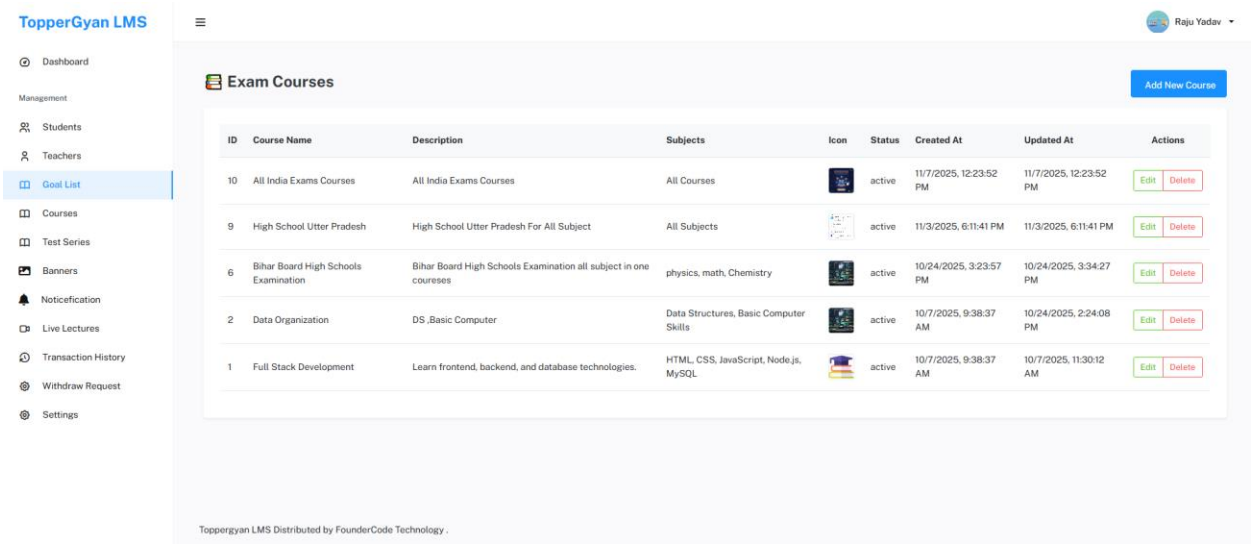

Slide 4 – Teachers Management

- Manage teacher profiles & assignments.
- Add new teachers or update existing ones.
- Assign teachers to specific courses / tests.
- Track total classes & student count per teacher.

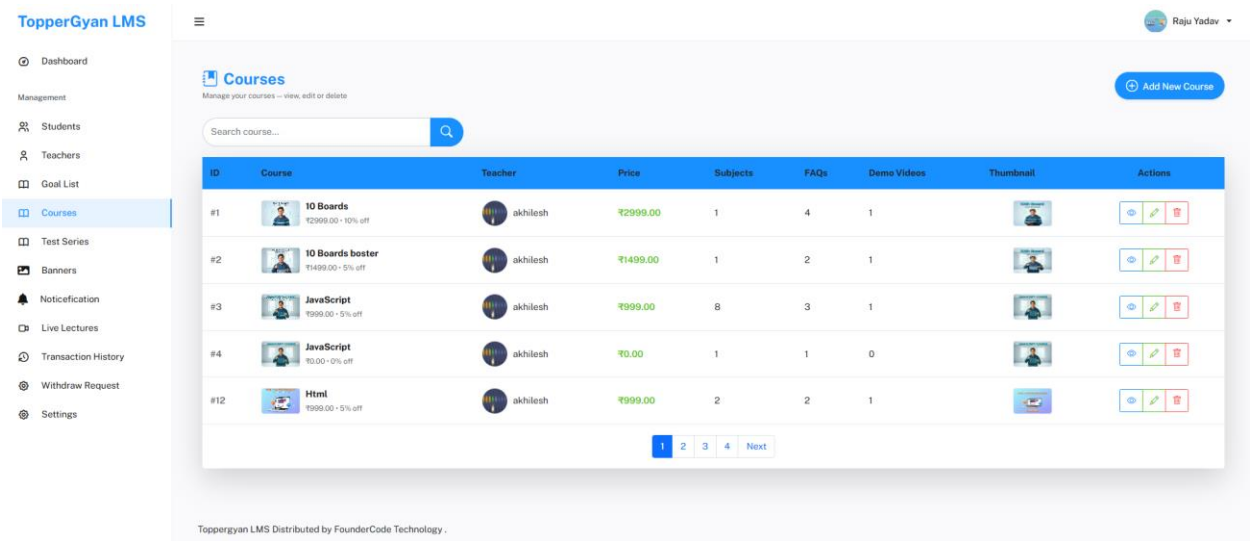

Slide 5 – Goal List

- Define academic goals for students.
- Helps group related courses under one objective.
- Makes learning progress more structured.

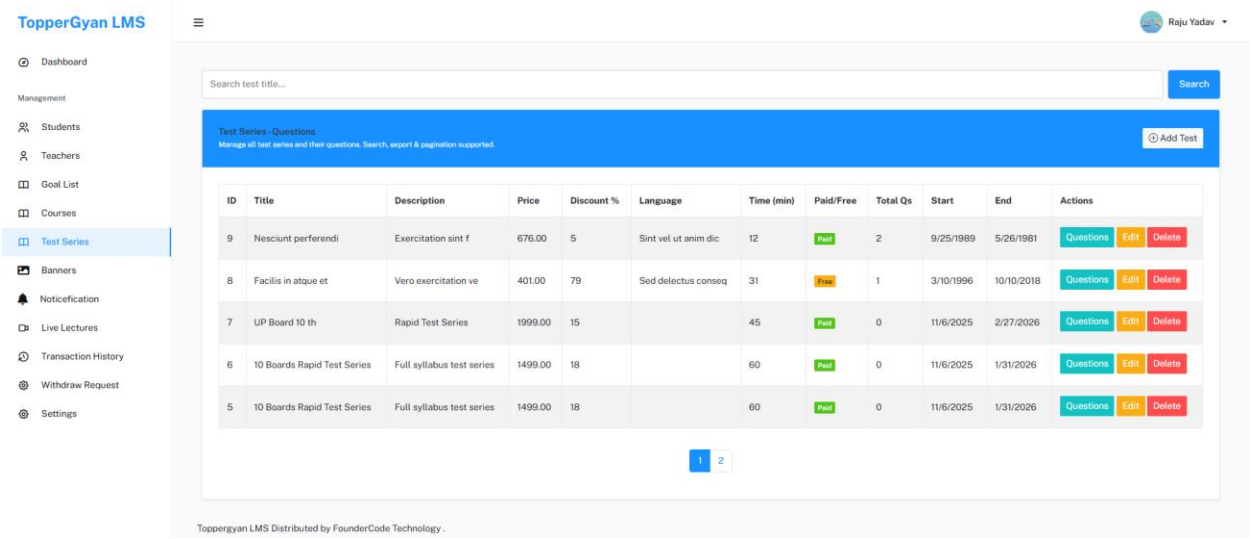

Slide 6 – Courses Management

- Add new courses with details (title, image, duration).
- Assign teacher + goal category.
- Edit or delete existing courses.
- Monitor student enrollments.

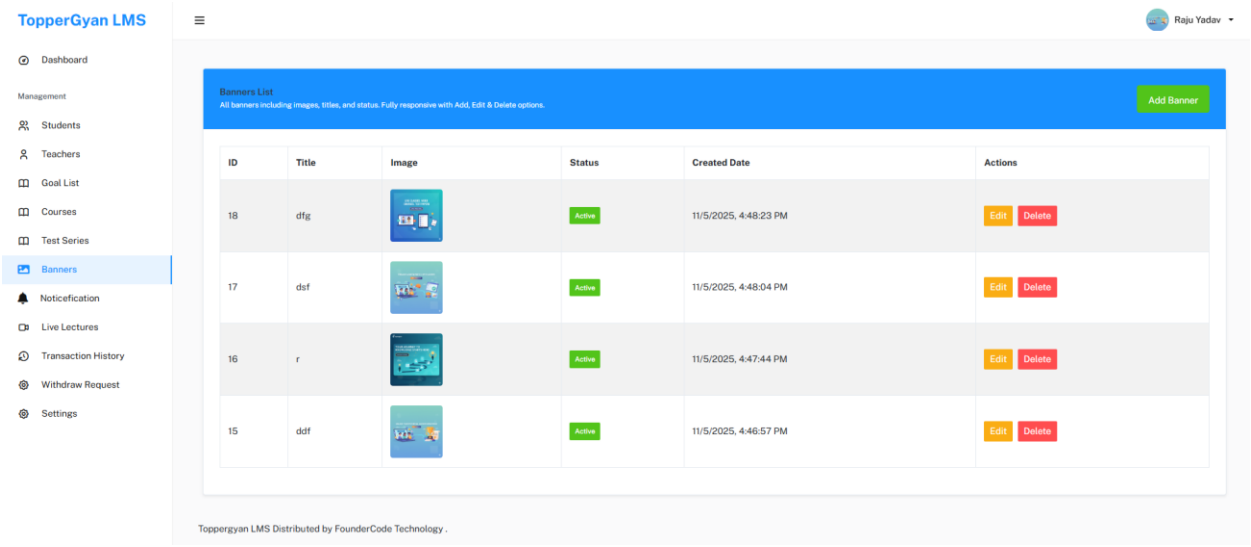

Slide 7 – Test Series Management

- Create and manage test series.
- Schedule tests and assign to students.
- View performance reports.
- Track total attempts per test.

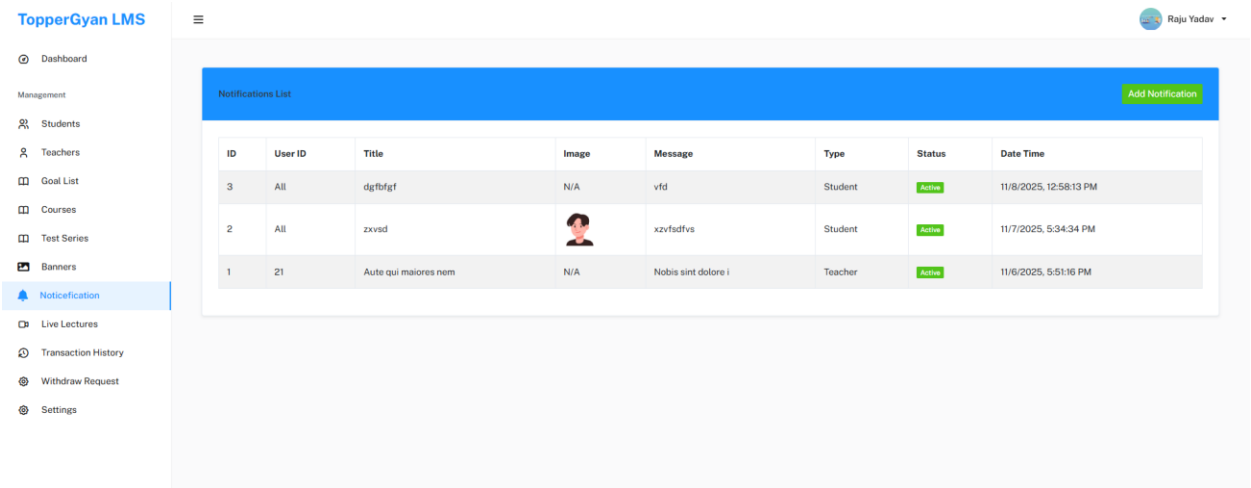

Slide 8 – Banners Management

- Upload and manage website banners.
- Promote courses or announce offers.
- Activate / Deactivate banners dynamically.

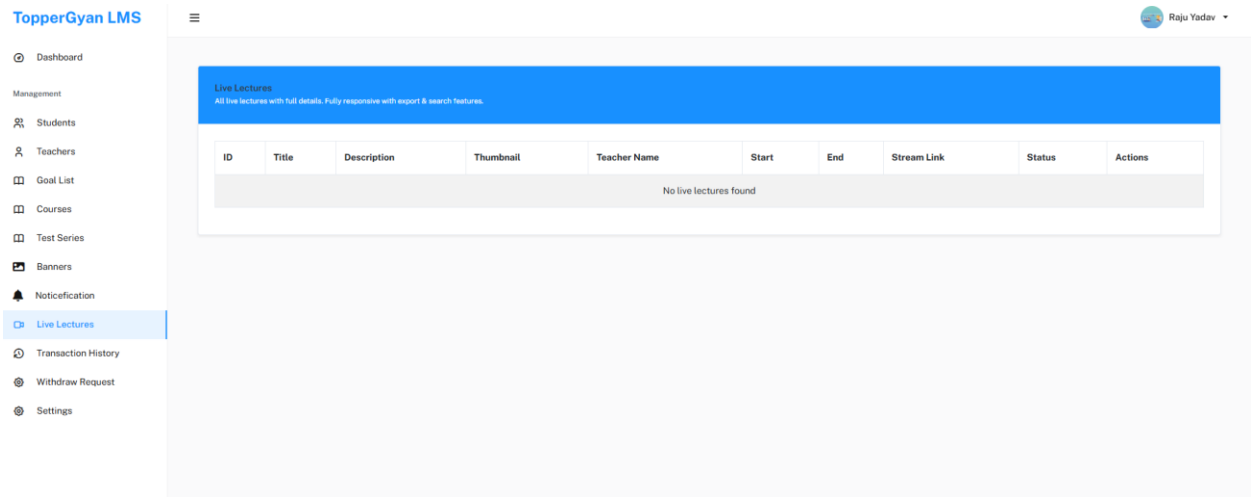

Slide 9 – Notifications

- Send real-time messages to students or teachers.
- Notify about new courses, tests, or live sessions.
- Stored in database for record tracking.

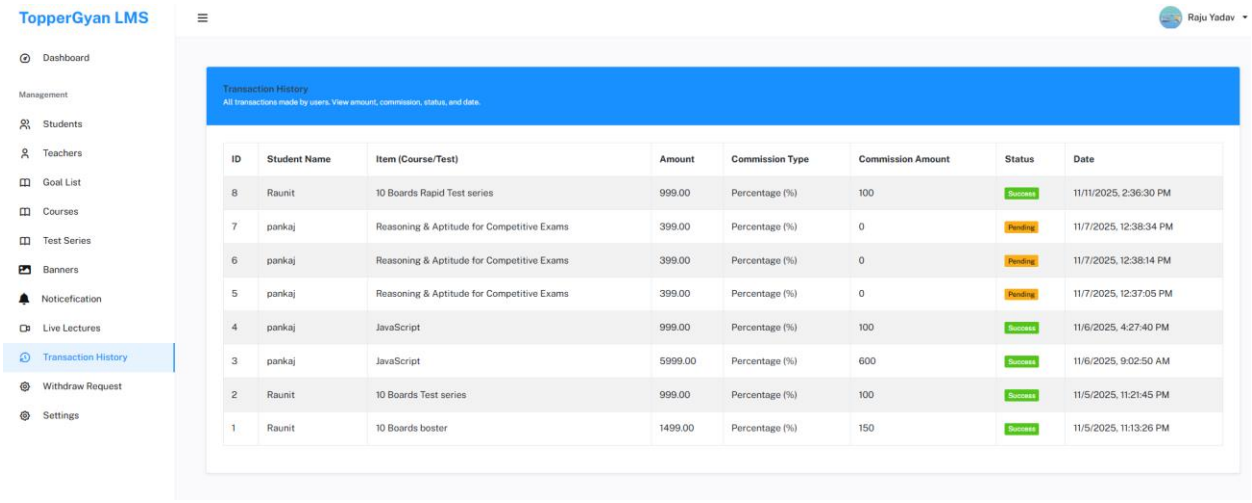

Slide 10 – Live Lectures

- Schedule and manage live classes.
- Integrate Zoom, Google Meet, or Jitsi links.
- Admin can edit or cancel sessions.
- Attendance tracking enabled.

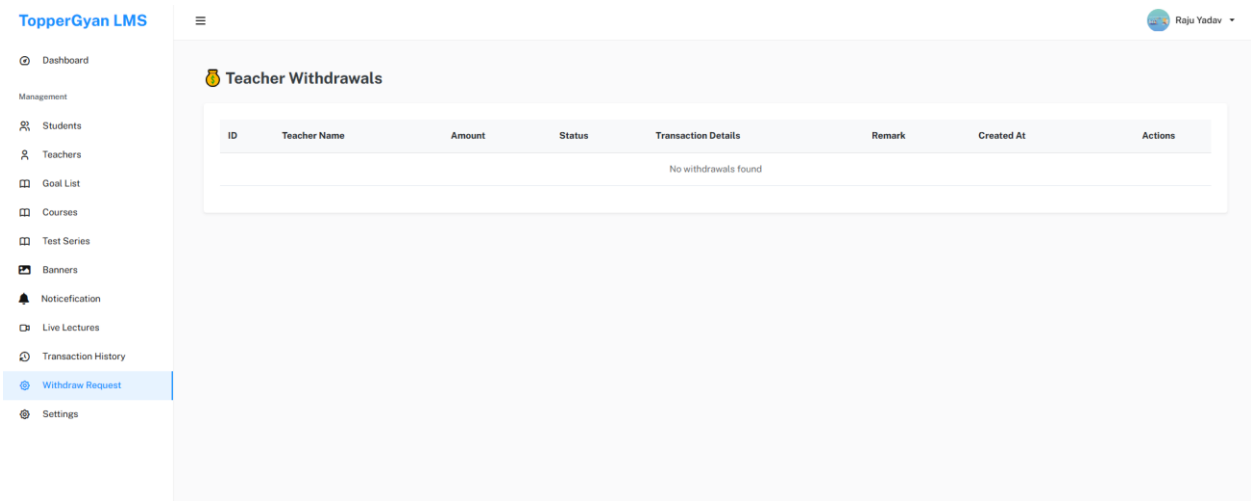

Slide 11 – Transaction History

- View all payment records (student & teacher).
- Includes amount, method, status, date.
- Export data for reporting.
- Real-time fetch from MySQL.

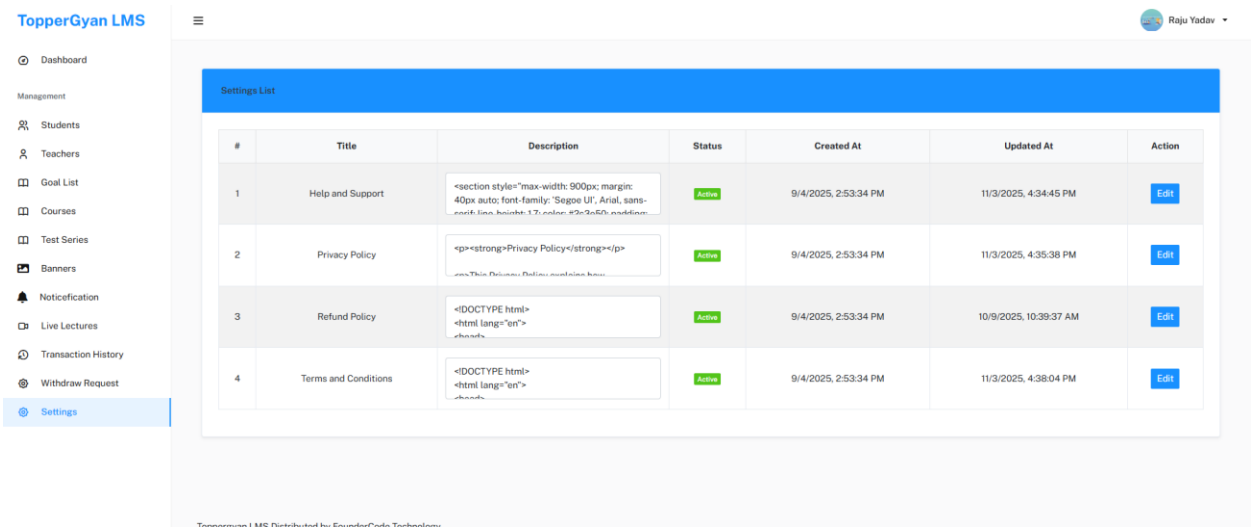

Slide 12 – Withdraw Requests

- Teachers can request payouts.
- Admin can Approve / Reject / Hold requests.
- Ensures transparent payment management.

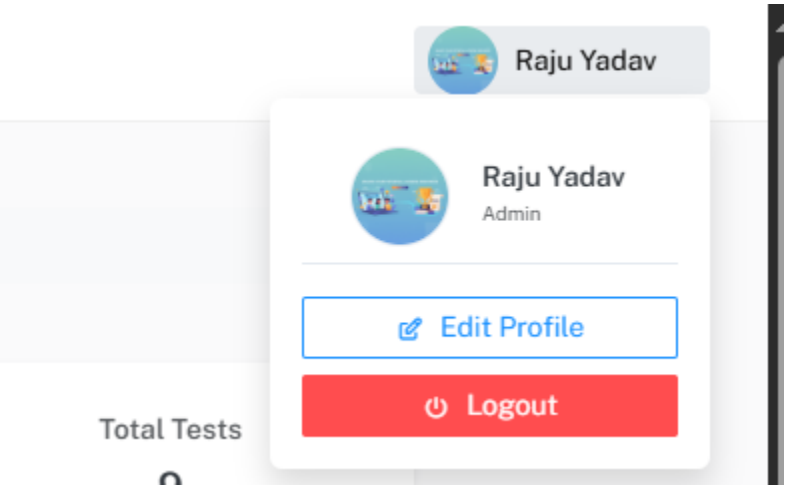

Slide 13 – Settings

• Manage and update **Help & Support** section to assist users effectively.
• Maintain and revise the **Privacy Policy** for user data protection.
• Define and update the **Refund Policy** for transparency and trust.
• Set and manage **Terms & Conditions** to ensure platform compliance.

Slide 14 – Logout

- Ends active session securely.
- Redirects admin to Login Page.
- Prevents unauthorized re-entry without login.

Slide 15 – Conclusion

- The **TopperGyan LMS Admin Panel**, developed by **FounderCode Technology Pvt. Ltd.**,
  provides a complete backend solution for LMS management.
- Automates data control and saves time for administrators.
- Secure, scalable, and user-friendly.

Thank You 🙏

Thank you for your time and attention.
We appreciate your support and interest in **TopperGyan LMS**.
Together, let's make learning smarter, easier, and more accessible!
